Inside the complete kit

Build with a clear brief. Launch with evidence.

54-page practical guide

From approved business facts to a checked launch.

30 copyable prompts

Brief, copy, build, repair and review.

Six fillable worksheets

Plan, test and hand over the website.

Working examples and files

Three fictional sites, editable templates and a launch checklist.

For small service-business owners, freelancers and consultants. Software and domain costs are separate. The examples are local practice sites; your live enquiry and domain still need testing.
